MANILA CIGAR-MAKERS STRIKE

MANILA, September 29.—The cigar-making industry of this city, probably the most important industry here and in which millions of dollars are invested, came to a standstill today when 15,000 cigarmakers went on strike. The workmen object to the new government scheme of registration, a rule to advance sanitation in the factories.

Over-Night Wireless To the Advertiser

It is reported in Washington tonight on excellent authority, and in spite of diplomatic denial from President Taft's secretary in Beverly, Massachusetts, that the President is preparing to call a special session of Congress to consider armed intervention in Mexico.

The President, it is understood, is to place before Congress, probably this coming week, the record of an accumulation of outrages against citizens of the United States and other foreign residents in Mexico, and of the troubles in the Southern Republic calculated to make that body take decisive action.

A new chapter in Mexican and Central American developments comes almost daily. There are lurid details. The industry of revolutionists is emphasized in the successive stories of plottings and raids and the sacrifice of human life. Troops are lined up along the Mexican border, with more going thither by the President's order every now and then. Warships are plowing the Atlantic on the way to Santo Domingo, where they are at anchor as grim sentinels and maintain the customs houses. It amounts to as much as intervention.

Two more lives were sacrificed to aviation in the United States army aviation field, College Park, Maryland, near here, late yesterday, when an army aeroplane suddenly fell thirty-five feet to the ground, instantly killing Corporal Frank S. Scott and so seriously injuring Second Lieutenant Lewis C. Rockwell that he died a few hours later.

Brigadier General Walter S. Schuyler, commander of the Department of California, has returned to San Francisco, accompanied by his aide, Lieutenant Alexander James, Fifth Cavalry, from his tour of inspection along the Mexican border.

Miss Bernatta Miller, an aviatrix of Canton, Ohio, left for Washington today to compete in the tests for aerial scout-work which are to be held in the military aviation field outside the National Capital, next week, unless yesterday's tragedy should postpone the event.

The New York Herald, in its annual election forecast, published this morning, indicates a strong lead in the Presidential race for Woodrow Wilson, as a result of its country-wide canvass.

The Chinese National Assembly has not yet approved the loan from the independent group of bankers, according to the most credible information here, although the local agent of the group declares the assembly sanctioned it in a secret session held Thursday.

Another stormy scene marked the concluding session today of the international peace congress. The uproar was caused by a speech by Doctor Gobat, in which the President of the International Bureau of Peace characterized the Italian airmen who have been operating in Tripoli during the war as "brigands of the air."

The new French dreadnought Paris was launched at Toulon today. The event was made the occasion of a great popular demonstration of approval of the policy of reinvigoration of the French navy introduced by Theophile Delcasse.

The United States may acquire a big naval base in Asia, as the result of the recent rejection by China of the \$350,000,000 international loan. This naval base is the Chusan Archipelago at the mouth of the Yangtze river near Shanghai and Ningpo.

Capt. R. Amundsen, discoverer of the South Pole, has postponed his North Pole expedition in the Fram because of the illness of the oceanographic investigator who is to accompany him.

Martial law ruled in Augusta Me., today as a result of last night's disorders, in which two men were killed and one wounded by State militiamen guarding property of the local street railway company, whose employees are on strike.

The Turkish government today revoked the permit it had issued for the passage of war material for Serbia through the Turkish lines. This action was taken because of unsatisfactory information Turkey had received concerning the attitude of Serbia.

The tension between Bulgaria and Turkey is so extreme that a week may decide whether there will be peace or war, says the Sofia (Bulgaria) correspondent to the Times.

It is now reported that Spain is under absolute dictatorship, due to

the wide scope of the strike on the railroads. The tie-up is complete throughout the country.

That a new rebellion has broken out in the Puxpan oil fields in Vera Cruz State, is the report out today. American and English capitalists are vitally interested in the outcome and it is feared that the rebels will set fire to the oil wells.

Methods of warfare employed by the Nicaraguan rebels were indicated today in United States Minister Weizel's report that during the bombardment of Managua, one hundred and thirty-two women and children were killed.

A strike of all the members of the Industrial Workers of the World employed in the textile mills of Lawrence, Mass., was advocated by the Lawrence grand council of the organization today.

Due to the great strain to which he has put his voice for the past four months, Dr. Scurry Terrell has ordered Colonel Theodore Roosevelt to shorten all his speeches hereafter, and to make no more rear-car addresses.
